

Study Guide:

The Great Controversy Between Christ and His Angels, and Satan and His Angels

This is the third book written by Ellen White, now usually called "Spiritual Gifts Volume 1", and covers the history of sin from before it ever existed in heaven, to its final eradication in the lake of fire that will burn up this world in the future. It was published in 1858, and is very different in content and style from the later 1884, 1888, and current 1911 editions, but the overall theme is similar. With the newer editions gaining the spotlight, this book has generally not been read by most of us Seventh-day Adventists up to the present time.

Believing that the words written in this book were all inspired by God, there is undoubtedly much instruction to be gained regarding the history of God's people, our position today, and the preparation we must make to get ready for the soon-coming Time of Trouble.

In doing this study guide, it is important to pray for the Holy Spirit's leading, and to keep in mind the title of the book which shows us who the controversy is between - Christ and his angels, and Satan and his angels.

The questions are designed to be straight-forward, with the inspired words themselves in this book giving the direct answer. The bonus questions are not directly answerable from this book, but may be found useful in stimulating deeper study not only in this book, but in the most important book of all - the Bible.

May the Lord's words not return unto him void is the prayer of the preparer;

Definition: "Rapping" refers to the start of modern spiritualism - from the Fox Sisters in New York in 1848. They and their friends would sit around a table holding hands, and then ask questions to the spirit world. No one would be touching the table, but there would be knocks (raps), one knock for "yes", or two knocks for "no", etc.

"Precious" means "of high value", and "vile" means filthy. In a spiritual sense, "precious" means "holy", and "vile" means "unholy".

"Thomas Paine" was born in England in 1737, but lived most of his life in America. He is the greatest intellectual of the American Revolution. He wrote many beautiful things about each person using their free will, but he also wrote many things against the Bible, and said that anyone who believed in the Bible was not using their brains. His writings are still very influential today in many universities of the world.
